

NewCo Festivals IOS App

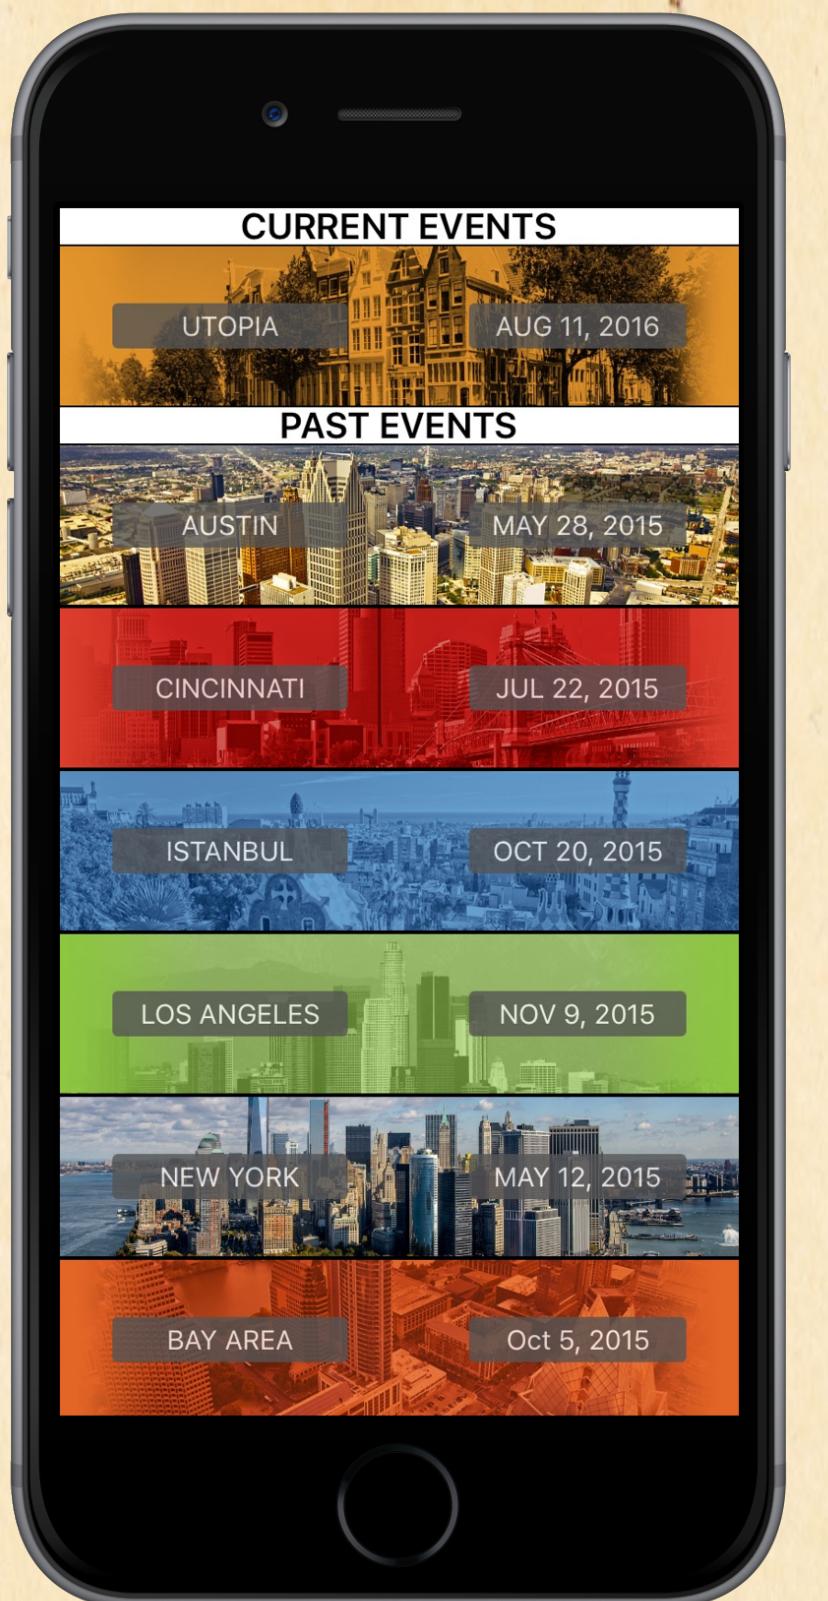

Get inside the world's most intriguing companies to learn, connect and celebrate

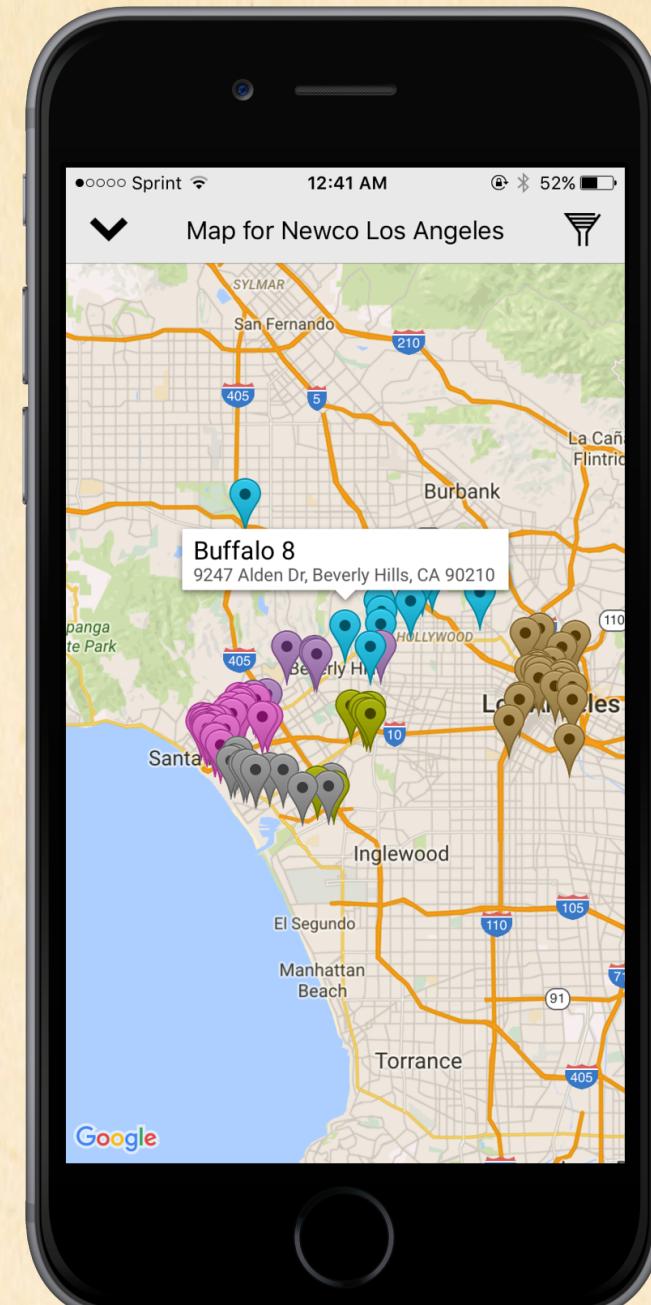

Use the menu to conveniently filter sessions by audience, date, or location.

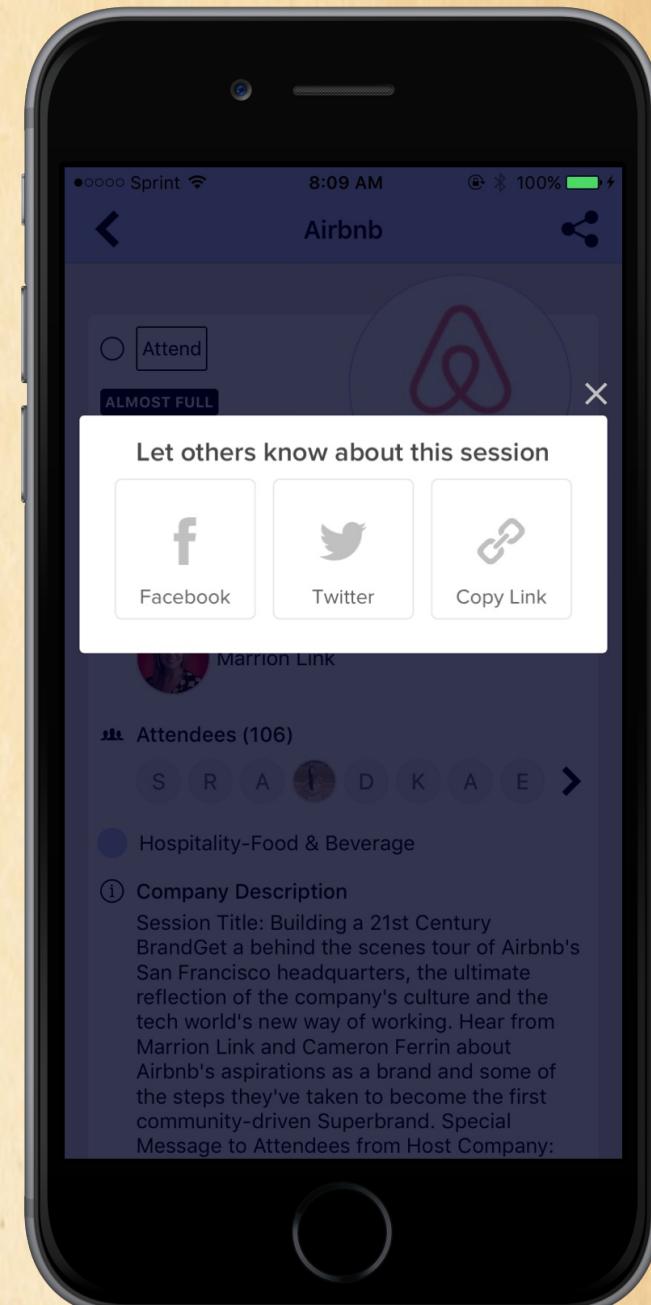

Attend sessions hosted by prosperous companies to learn first hand how they run their business model.

NewCo festivals are held throughout the year in cities around the world. Browse all current and previous festivals.

View all the sessions on a map so you can better plan out your day and help build your schedule.

Share a session on Twitter and Facebook to let your friends in on all the fun!

What is a NewCo Festival:

Newco festivals consist of city-wide conferences that have the focus of a business seminar and the feel of a music festival. The festivals consist of thousands of attendees and multiple companies. Each company hosts interactive sessions where attendees have an opportunity to learn first hand how these companies operate.

What the app does:

The app's main feature is to allow a user to easily build a schedule consisting of hour long company sessions. The user can browse all the sessions in the app and add any of these sessions to their schedule.

Some additional features:

- Swapping sessions when you have a time conflict
- Sign up and customize your profile for others to see, or enable the privacy feature to keep your profile and schedule hidden
- Purchasing tickets easily without ever leaving the app
- Browse attendees, companies, volunteers and presenters to see what sessions they are hosting/attending
- Real-time usage tracking stored on firebase
- Tap on an address to open it up directly in apple maps
- Many other useful features!
